INNOVATIVE
insulation solutions
For a Greener world

#SWADESHI

TURNOVER
USD 160 million

Founded in 1985

11 companies spread
across the globe

Core expertise in R&D, designing
and producing EPDM and rubber
polymer based innovative products

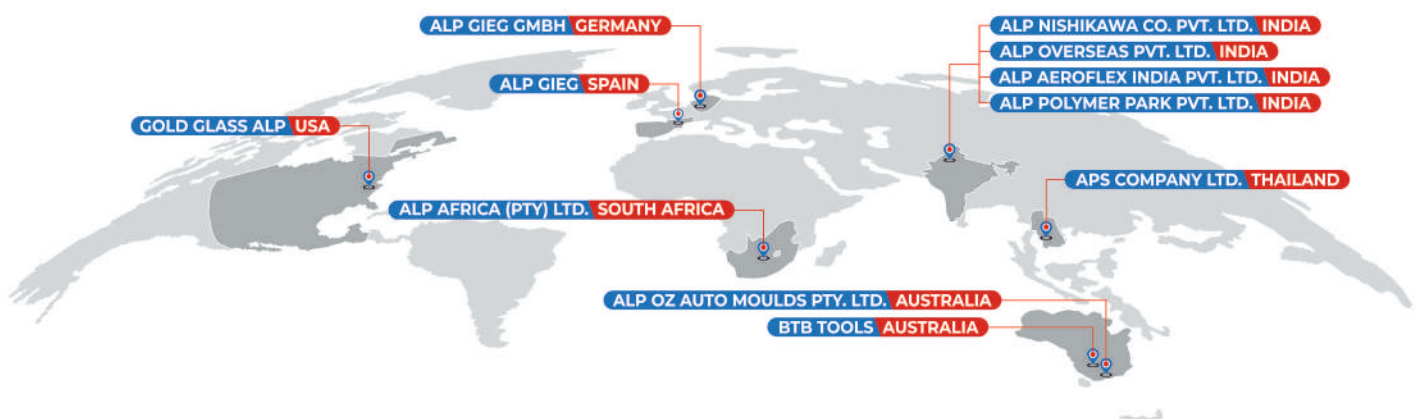

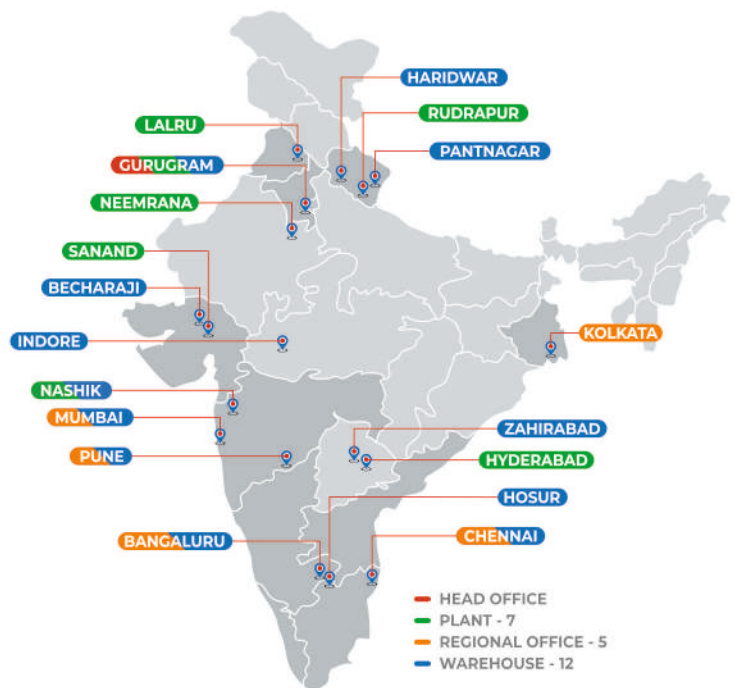

Portfolio of over 10,000 products

- **Global construction industry:** Weather Sealing, Thermal and Acoustic Insulation Solutions
- **Global Automotive Sector:** An OEM & after-market supplier for Weather Sealing systems

INNOVATION

R&D has been of the significant importance for the company so far. Their state-of-the-art product line has been the end-result of the determined efforts that emphasize quality design and development capabilities. The Government of India approved R&D units, the DSIR, have been established with a few modern infrastructures and testing equipment. Their unwavering focus on innovation has assisted them stay ahead in the learning curve and constantly develop end-to-end solutions that strengthen the company's commitment to client contentment.

ABOUT ALP AEROFLEX

An eminent technology leader in Thermal and Acoustic insulation solutions, ALP Aeroflex, has pioneered the global insulation industry with its exclusive product line. The company is a collaborative venture of ALP Overseas Pvt. Ltd., India and The Eastern Polymer Group, Thailand. So far, it has carved a reputation of being an innovation-driven insulation solutions provider of EPDM and Nitrile Rubber Insulation Sheets, Tubes, Accessories & Roofing solutions. Swadeshi, innovative, pioneers in polymer

technology, reliable & safe are the expressions with which the company defines itself. The industry player takes immense pride to have aligned with the Atma Nirbhar Bharat's vision to manufacture high-quality innovative products in India as well as abroad for various Thermal applications such as HVAC, Urban Infrastructure, Solar, Pharma & Roofing in addition to Acoustic applications for Wall, Floor, Duct, and equipment sound.

AEROFLEX®

EPDM Insulation Tubes & Sheets

Wide Range: 1/4 inch to 10 inches diameter | Nitrosamine free in accordance to FDA norms | Anti Fungal & Anti Bacterial | Low density, closed cell structure having low and stable K value for high energy saving | Temp. range -200°C to 125°C | Flame & smoke retardant, meets international fire and smoke standard such as ASTM-E84, UI94, JIS K6911, ENOAM UNIM ASTM - D635

AEROCELL

Nitrile Insulation Tubes & Sheets

Completely closed cell elastomeric nitrile insulation | Quick and easy to install with no special tools | Very high diffusion resistance and no cladding is required if installed inside | It is available with reinforced aluminium foil, Glass cloth and self adhesive backing | Wide working temperature (-40°C to +105°C) | It meets class O fire performance as per Bs476 Part 6&7, UL 94 flammability class V-0 and it is FM Approved.

Aflex-ECO

Nitrile Insulation Tubes & Sheets

Completely closed cell elastomeric nitrile insulation | Quick and easy to install with no special tools | Excellent compression strength due to closed cell structure | Superior thermal insulation properties over other open or semi closed cell insulation material | Very high diffusion resistance and no cladding is required if installed inside | Class 1 fire safety as per BS476 part 7.
