INNOVATORS IN POLYMER
TECHNOLOGY

GROUP PROFILE

THE ALP GROUP

INNOVATORS IN POLYMER TECHNOLOGY

ALP Group is a leading manufacturer of Rubber, EPDM, Polymer, and Silicon products for Automotive, Railways, Drone & Aerospace industries. It also has a range of Thermal & Acoustic Insulation products for HVAC & Construction industries. The company manufactures several household products as well, e.g anti skid bathroom mats, yoga mats, window and door seals, shower seals, door stoppers and anti fatigue kitchen mats. The group turnover is approx. US\$ 200 million. The Group, founded in 1985, has, at present state of the art manufacturing units, located in India, South Africa and Australia. It also has its presence in Europe, USA, Middle East and South East Asia with a total of 11 companies across the world and employs over 3000 trained workforce.

The company's R&D and testing laboratories are NABL accredited, and DSIR approved.

Founded in 1985

Turnover USD 200 million

11 companies spread across the globe

8 Manufacturing Plants across the world

Core expertise R&D, Designing & Manufacturing

6 Joint Ventures

INTERNATIONAL SPREAD

THE ALP GROUP PROMOTERS

The ALP Group was founded in 1985 by Mr. Iqbal Singh Anand who has been driving it with his expertise and exceptional domain knowledge, He was one of the 1st to promote EPDM technology in India. ALP, in last 40 years has become a sought-after name in Polymer industry, catering to needs of various Automobile, HVAC & Consumer Durable manufacturers in India and Abroad.

OUR GROWTH DRIVERS VALUES

Over **170000 Sq. Mtr.** Land Area, Over **120000 Sq. Mtr.** Buildup area
& Over **56000 Sq. Mtr.** Green Area

Manufacturing Plants across Gugalkota, Rudrapur, Lalru, Gurgaon,
Sanand, Hyderabad, Nashik, in South Africa & Australia

PARTNERSHIPS OVER THE YEARS

SERVICES OFFERED BY ALP GROUP

INDUSTRY OFFERINGS

HVAC and Industrial – Thermal and Acoustic Insulation. Underdeck insulation

Data Centres – Vibrational/Acoustic and Thermal Insulation

Pharmaceutical - Insulation for various Sub Zero and Steam/Hot Process

Food & Dairy - Insulation for various Sub Zero, Thermal and HVAC applications,

Construction Industry - Glass Façade / Window sealing / RCC Concrete Pipe sealing applications. HVAC Insulation. Noise and Sound Deadening sheets. Acoustic underlays for floorings and concourses. Vibration reduction pads and sheets for various applications. Shower Seals. WPC panels

Airports - All the above products used by construction Industry, and underdeck insulation, weather resistant HVAC insulation, Fire retardant insulation, Acoustic insulation.

Automobile Industry - Weather sealing systems, Door, window, and windscreen seals, mounting pads, moulded SUV tops, plastic moulded parts, blow moulded parts.

Railways - Window and door seals, Under ballast mats, rail pads, blow moulded and vacuum formed parts, luggage racks. Thermal and sound Insulation.

Factories, Warehouses, And Cold Storage Centres - thermal insulation, HVAC insulation, wall panelling, underdeck insulation.

Aerospace & Drone - blow moulded and vacuum formed parts, silicon based parts.

R&D CENTER AT GUGALKOTA

**NABL & DSIR, .
Govt. of
India Approved**

- » Modern infrastructure, superior technology & new world-class rubber testing equipment (RPA-2000)
- » Strong focus on Innovation
- » Best group of rubber technologists and chemical engineers from renowned universities
- » Research on new material & products, leading to the cost reduction & best solutions to the customers
- » Reducing carbon footprint & Promoting Make in India

TESTING CAPABILITIES

- » Complete Weathering Test Lab (Ozone Chamber, Climatic Chamber & Weather-O-Meter)
- » Fire Test Lab (LOI, Smoke, Toxicity & FMVSS-302)
- » Reverse Engineering Lab (FTIR, TGA & DSC)
- » Physical Testing Lab
- » Photo Mould Shop
- » Chemical Testing Lab

LIMITING OXYGEN INDEX

HORIZONTAL FLAMMABILITY

LABORATORY SNAPSHOT

R&D CENTER AT LALRU

Testing facility at R&D Lalru

- » A constant temperature and humidity chamber for simulation environmental conditions.
- » The facility offers comprehensive solutions for physical testing and advanced solutions for mechanical testing.
- » The lab complies with standard norms for fire
- » Microscopic analysis

PROTOTYPE DEVELOPMENT

ALP Nishikawa Company Private Limited (ANCO), is a Joint Venture with Nishikawa Rubber Co., Ltd., (NRC) of Japan. It is the flagship company of ALP Group and leading manufacturer of TPE, PVC, CRC Metal, Coated Aluminium & EPDM Rubber & Weather Sealing Systems for Cars and Commercial Vehicles in India. Headquartered in Gurgaon, ALP Nishikawa has strong OEM presence, with all leading automobile manufacturers as its customers all over India. ALP Nishikawa is a design capable company, which can provide holistic design, tooling and manufacturing solutions.

Domestic Business Division

Versatile Range of Polymer, Rubber & Silicon Products

EPDM SEALS & PROFILES

REFRIGERATOR SEALS

EPDM RUBBER GRANULES

BATHROOM MAT

PVC RIGID & SOFT PROFILES

SILICONE EXTRUSION

SHOWER SEALS & PROFILES

DOOR & WINDOW
SEALING PROFILES

Rail / Metro Seals

ALP Overseas, leverages the group's strength in Polymer Technology to cater to various domestic customers. It has been catering to various industries across the consumer durable & replacement market segment with its wide range of PVC and Rubber extrusion & Molded products. With a clear focus on Innovation & Sustainability, the group is fully aligned with environmental responsibility & Make in India.

Sound Deadening Sheet

UPVC CLAD

EPDM

EXOFOAM

ALP Aeroflex is a joint venture of **ALP Overseas Private Limited** of India and the Eastern Polymer Industries of Thailand for manufacturing of EPDM and Nitrile Rubber Insulation Sheets, Tubes and Accessories for Thermal & Acoustic Insulation. It also manufactures moulded auto parts, noticeably the Thar Mahindra moulded top. The company is poised for major expansion with a new plant equipped with latest state-of-the-art technology, in Gugalkota, near Neemrana (Rajasthan State).

Blow Moulding Division

ROBOTIC MOULDING MACHINE AT WORK

ALP Aeroflex India Pvt. Ltd. & Aeroklas Co. Ltd., Thailand have come together as part of a strategic alliance. Aeroklas Co. Ltd.; the technical partner in the Joint venture, is a member of the Eastern Polymer Group (EPG) and has been producing plastic automotive product accessories for over 35 years. Innovation is at the core of the merger to meet the dynamic demands of the automobile industry. We pay great attention to every aspect of production that contributes to the success of each process, including production, quality, manpower and factory excellence which has enabled us to be accepted as one to the top ranking automotive accessory companies.

OUR TEAM

WE STRIVE TO SET NEW BENCHMARKS

The team at ALP Group comprises of highly qualified and experienced professionals and technocrats having tremendous exposure to all core areas essential for growth of an organisation.

The team has grown stronger in the past 30 years, carrying forward the strong belief of carving a good living for people on the foundation stones of trust, transparency and integrity.

MANPOWER EMPLOYED
